A tester’s mind is never at rest. It is constantly searching, over populated with information, and continually discovering changes to context. A tester at work is interacting with plenty of people who don’t understand testing, pretend to understand or have conflicting ideas of testing. A combination of all this creates restlessness in a tester’s mind. A restless mind ends up with fragmented learning and chaos. This impacts the quality of life itself. Is this book for you? This book covers the ISTQB Expert Level Test Manager syllabus and is a complete, one-stop preparation guide for the reader who is otherwise qualified (based on experience as a test manager) to take the Expert Level Test Manager exam.
